HI

THERE!

Eco Blu Group was founded to give businesses the freedom to choose smart, sustainable solutions that suit their unique needs. We offer a wide range of services, including renewable energy, construction, and full turn-key project management, delivering expert guidance from concept to completion.

Through strong strategic partnerships, we provide high-quality, cost-effective solutions across residential and commercial sectors without compromising on performance or sustainability. Our experienced, hands-on team works closely with every client to ensure each project is practical, financially viable, and aligned with long-term goals. At Eco Blu Group, we are more than a service provider.

We are your trusted partner in building efficient, environmentally responsible, and future-ready spaces.

ABOUT COMPANY

Eco Blu Group empowers businesses, farms, and homeowners with eco-friendly, cost-effective solutions for construction, solar, and turn-key projects. We offer planning, consulting, implementation, and after-construction support, including flexible rent-to-own solar options, to improve efficiency and reduce environmental impact.

Serving commercial, industrial, and agricultural sectors, we provide practical, green, and sustainable solutions tailored to your needs.

Go green with Blu and let us help you build a smarter, more sustainable future.

WELCOME MESSAGE

We're delighted to have you here. At Eco Blu, our team of dedicated professionals is committed to guiding you every step of the way, from the first idea to the final implementation. Whether you're planning a new construction project, upgrading with solar solutions, or renovating your home or business, we're here to make your vision a reality.

We believe in doing things differently, combining quality craftsmanship with sustainable, eco-friendly solutions that reduce your carbon footprint and support a greener future. From construction and solar installations to tools, PPE, logistics, and health and safety support, we provide everything you need under one roof, making your project seamless and stress free.

We're more than just a company; we're your trusted partner. Together, we can create functional, beautiful, and environmentally responsible spaces that stand the test of time.

Welcome to a new way of building with purpose. Welcome to Eco Blu.

OUR VISION

To be the leading provider of innovative, sustainable, and all-in-one solutions that empower individuals, communities, and businesses to drive lasting positive change.

We envision a future where environmentally responsible practices are the norm, supported by access to clean energy, efficient infrastructure, and dependable services.

As a trusted all-in-one service provider, we simplify operations through integrated solutions in solar, construction, electrical, plumbing, cleaning products, PPE, logistics, and health and safety – reducing complexity while promoting growth, sustainability, and innovation.

OUR MISSION

Our mission is to deliver exceptional value through quality craftsmanship, innovation, and environmental responsibility. We strive to be more than a service provider – we're your trusted partner every step of the way.

We are committed to:

- Providing sustainable, integrated solutions that exceed expectations
- Driving positive change through innovative practices
- Promoting environmental stewardship
- Fostering excellence and continuous improvement
- Building lasting relationships based on trust and performance

By simplifying operations with our all-in-one solutions, we help businesses grow efficiently and sustainably.

Together, we're shaping a brighter, greener future – one project at a time.

OUR PRODUCTS

Eco Blu Group supplies a wide range of eco-friendly and essential products for homes, businesses, farms, and workplaces.

Our offerings include:

- Eco-Conscious Cleaning and Maintenance Products: Biodegradable disinfectants, degreasers, refuse bags, and specialized solar panel cleaning solutions to protect equipment and improve efficiency.
- Personal Protective Equipment (PPE), Tools, and Safety Gear: High-quality industrial and commercial products from trusted brands such as Lasher Tools, Vicker Tools, Okapi Knives, and Hilsen Harnesses, all SABS-approved.

Our products are designed to help you maintain safe, clean, and sustainable environments, complementing our services in construction, solar, electrical, plumbing, and health and safety solutions.

Available on multiple platforms, including direct purchase at Eco Blu , with fast and reliable delivery.

Transforming everyday solutions with Eco Blu

We create professional-grade cleaning products designed for performance, sustainability, and innovation.

Our Solar Panel Wash is one of our proudest achievements, and it's changing the way solar systems are maintained across South Africa. We believe this product will be a valuable addition to your store's range,

offering customers an effective, eco-friendly way to care for their solar systems. We would appreciate the opportunity to collaborate with your store to showcase and distribute this innovative product, helping more South Africans experience the benefits of cleaner, more efficient solar power.

OUR SERVICES

We deliver innovative, reliable, and efficient solutions for commercial, residential, and industrial clients. From expert consulting to sustainable energy solutions, our services are designed to support growth, safety, and long-term operational success.

Consulting Services

We provide specialist consulting and operational support for commercial and residential projects, including:

- Cooling Solutions: Air Conditioning, HVAC & Chillers
- Construction & Maintenance: Renovations, Painting & General Works
- Geysers, Plumbing, Flooring & Gutters: Commercial, Residential & RDP
- Waterproofing & Damp Solutions: Including Damp Vents
- Carpentry: Commercial & Residential
- Health & Safety Training: Businesses & Organisations
- Logistics & Transport Support

Main Services

Our core service offerings focus on long-term solutions, sustainability, and operational efficiency:

- Maintenance Contracts
- Electrical Services
- Solar Panel Cleaning
- Rent-to-Own Solar Solutions/Power Purchase Agreements
- Solar Energy Systems: Commercial & Residential

SOLAR SYSTEMS

COMMERCIAL & RESIDENTIAL

Eco Blu Group provides a comprehensive range of solar solutions focused on sustainability and efficiency, including:

- **Solar Product Supply & Installation:** Quality systems tailored to your needs
- **Grid-Tie & Hybrid PV Systems:** Reliable energy solutions with or without backup (LV and HV)
- **Energy Audits & Planning:** Optimize energy consumption
- **Generator Integration:** Seamless connection with solar systems
- **Maintenance, Repairs & Cleaning:** Ensure peak performance and maximize energy output
- **Solar-Powered Sliding Gate Motors:** Sustainable automated gate operations

Harness the power of the sun with Eco Blu Group to create a greener, more efficient future for your home or business.

RENT-TO-OWN SOLAR

POWER PURCHASE AGREEMENTS

Eco Blu Group provides Solar Power Purchase Agreements (PPAs), a flexible rent-to-own solution that lets businesses adopt solar energy without upfront costs.

With a Solar PPA, businesses enter a long-term agreement to purchase electricity from solar panels on-site or at a nearby solar farm, offering:

- **Cost Savings:** Fixed or reduced electricity rates
- **Predictable Energy Costs:** Simplified budgeting over the contract term
- **Environmental Sustainability:** Lower carbon footprint with renewable energy

We partner with trusted investors and manage the full process—from feasibility and project development to installation, operation, and maintenance—ensuring a seamless transition to solar energy.

WHAT IS A POWER PURCHASE AGREEMENTS ?

A Power Purchase Agreement (PPA) is a long-term contract between your business and a solar energy provider. Your business purchases electricity generated by solar panels at a predetermined rate, while Eco Blu manages everything, from installation to maintenance.

With a PPA from Eco Blu, there are no upfront costs, all maintenance and panel cleaning is included, and your system is fully insured, giving you hassle-free, reliable solar energy.

PPAs make solar energy affordable, predictable, and worry-free, helping businesses reduce reliance on the grid.

The Process
